

CITY OF WYOMING NOTICE

The Illinois Environmental Protection Agency requires the Water Department to send a Cross-Connection Survey to all water residents every 3 years. This is a new requirement for all Municipalities to ensure we do not have a potential problem with chemicals or other bacteria that can get back into our water supply. The survey is simple and asks if you operate a business in your home and if the water is used for other uses other than your bathroom. We also need to know if you have a check valve in your drain to prevent water from coming back up in your drain. The back of the survey is for commercial buildings only, so there is no need to fill out the back section if you are a homeowner or renter of your house. You should be receiving this survey in the mail in the next couple of weeks. If you have questions about the survey, you can contact:

Alderman Jim Mercer at (309) 287-9330.

**Please drop off your completed survey at City Hall or mail it to
City of Wyoming, 108 E. Williams St., Wyoming IL 61491**
